DEPARTMENT OF DEFENSE APPROPRIATIONS FOR 1970

UNITED STATES SENATE LIBRARY

HEARINGS

REPORT A

SUBCOMMITTEE OF THE COMMITTEE ON APPROPRIATIONS HOUSE OF REPRESENTATIVES

NINETY-FIRST CONGRESS
FIRST SESSION

SUBCOMMITTEE ON DEPARTMENT OF DEFENSE

GEORGE H. MAHON, Texas, Chairman

- ROBERT L. F. SIKES, Florida
- JAMIE E. WHITTEN, Mississippi
- GEORGE W. ANDREWS, Alabama
- DANIEL J. FLOOD, Pennsylvania
- JOHN H. SLACK, West Virginia
- JOSIEPH P. ADDARDO, New York
- FRANK E. EVANS, Colorado
- M. I. J. HITCHCOCK, West Virginia, Past Chairman, Missouri Substitute

CLARENCE P. LIPSCOMB, California
WILLIAM E. MINSWALL, Ohio
JOHN J. RHODES, Arizona
CLENN R. DAVIS, Wisconsin

Temporarily assigned

H.B. 15090

PART 5

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Department of the Army

Statement of Director, Advanced Research Project Agency
Statement of Director, Defense Research and Engineering

WASHINGTON 1968

Funding for Development of the AIDS Virus

The development of the AIDS virus was funded in 1969 (three years before the request for development by the World Health Organization) through funds obtained by the United States Defense Department. The Defense Department requested and received \$10 million via House Bill 15090, which was reviewed in hearings before the Subcommittee of the Committee on Appropriations, House of Representatives during the Ninety-First Congress in review of the Defense Appropriations for 1970.

Part Five of H.B. 15090 was entitled RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, sponsored by the Department of the Army, the Advanced Research Project Agency (now DARPA), and Defense Research and Engineering.

The Feasibility program and laboratories were to have been completed by 1974-1975 and the virus between 1974-1979. The WHO started to inject AIDS-laced smallpox vaccine (Vaccine) into over 100 million Africans in 1977. Over 2000 young white male homosexuals (Operation Trojan Horse) were injected with laced hepatitis B vaccine in 1978 through the Centers for Disease Control and the New York Blood Center. The development of the virus apparently had a dual purpose: (1) As a political/ethnic weapon to be used against Black individuals and (2) one of the programmed efforts at de-population.

The mission of the Subcommittee that took place on July 1, 1969, involved discussions about Synthetic Biological Agents. Part of the Congressional narrative (from HB 15090) is detailed below:
"There are two things about the biological agent field I would like to mention. One is the possibility of technological surprise. Molecular biology is a field that is advancing very rapidly and many eminent biologists believe that within a period of 5 to 10 years it could be possible to produce a synthetic biological agent, an agent that does not naturally exist and for which no natural immunity could have been acquired."

Mr Sikes: Are we doing any work in that field?

Dr. KacArthur: We are not.

Mr. Sikes: Why not? Lack of money or lack of interest?

Dr. KacArthur: Certainly not lack of interest.

Mr. Sikes: Would you provide for our records information on what would be required, what the advantages of such a program would be, the time and the cost involved?
